Message from Academic Registrar

Muni University, just like any other public tertiary institution, is here to advance knowledge through teaching, research and community service. The emphasis will always be on Information and communication technology (ICT), vocation and technical education, environmental and health sciences, Agriculture, Mathematics, Engineering, Business and Financial Management and Science Education

All prospective students are therefore invited to join Muni University, which is a centre of academic excellence and innovation, a model university, a good and rigorous academic environment that will change and improve your opportunity and academic and professional career forever.

Muni University is ready to broaden your horizon and equip you with knowledge, skills and competencies that would enable one to face the challenges in the ever changing and complex global economies that requires multiple skills.

The office of the Academic Registrar will always remain open to students and ensure that all the academic processes in the university are handled effectively and efficiently in order to promote accountability and transparency.

I wish you a good time at Muni University

Felix A Opio Okello
ACADEMIC REGISTRAR

Message from the Dean of Students

I take the honour to warmly welcome all of you to Muni University. Congratulations for achieving this milestone. The office of the Dean of Students is open to all students, and it strives to coordinate students' welfare issues. We also offer a free and friendly interactive environment to the students in terms of guidance, and information that motivates students to view life in a positive manner.

As students and young persons, it is always important to value information because it is key to knowledge and your wellbeing in any setting. You all joined with one intention; to study hard and graduate with high grades. All these calls for your understanding of what you will need to set you apart and distinct from your peers. A university setting is the best environment that gives your brain to work and think differently and at the same time explore your freedom. That freedom comes with responsibility.

I therefore encourage you to think and behave responsibly, to respect yourself and others, to uphold the university mission, values and motto, to uphold peace and dialogue as a way of solving problems, and champion in transforming lives of the communities.

You also have a personal responsibility to choose a conducive place to sleep in, eat healthy meals, do exercises by engaging in sports activities, seek early medication when you fall sick, seek guidance and counselling services when you feel challenged in life, always attend lectures and do your course-works in time. Then success will be yours. ~A good head and good heart are always a formidable combination. But when you add to that a literate tongue or pen, then you have something very special~ Nelson Mandela.

I wish you a happy and fruitful stay at Muni University.

DEAN OF STUDENTS

Message from the Guild President

Firstly, I want to thank the Almighty God for keeping us alive until today. For His continuous provision, He granted the Nation and in particular West-Nile Region this great Muni University. To the new students, I take this opportunity to congratulate all of you for making it to Muni University. It was for your hard work and commitment that Muni University opened its doors wide to welcome you in for Quality Education. In Muni University, we have a well established students leadership (Guild government) through which student issues are handled and addressed to the University management through the Dean of Students (DoS).

Currently, there are twenty three Guild officials (23) fully elected by the students among which includes the Guild President and the Vice, Guild Speaker and the deputy, Secretary General and the deputy, twelve Ministers and five Guild Representative Councillors. The Guild Leadership is made up of: Guild President, Guild Speaker, Secretary General, Ministers, and Guild Representative Councillors (GRCs)

A University is a place known for imparting and generating knowledge. A place filled with intellectuals in various fields of studies. This is all characterized by intensive research that has its main objective of serving the community we live in and the world at large (Global Village). Students are the pillars of Universities. A University is ranked in line with the Characters of its Students i.e. discipline, and academic excellence. But most importantly, according to how they score at work places. This comes as feedback from employers. So my fellow students let us not deviate from our core objective that brought us to Muni University. That is to excel both academically and morally.

It is unfortunate that in our country today, students join the University with the mindset of leisure. People join Universities to go and “enjoy life”. Little do they know that life is only good for those who prepare for it now! Be an all rounder. The world outside needs and expects a lot from us (students). How precious would it be for you and I to act in the global context after attaining University education (be universal).

At one point in time, things may not go well. We may meet challenges but strikes and unlawful demonstrations should not be the way to go. Let us embrace dialogue when it comes to problem solving. Both the students and the administration should be willing to negotiate. It's only through dialogue that peace can prevail. We should not give up. **“When a river kills your loved one, you cannot vow never to drink water again”**. But in so doing, let us know our limits. **“A he goat cannot wish or dare to mate a lioness however much it needs a partner”**

My colleagues in academic battle let us keep the focus so that when the right time comes, Muni University will again open its gate but now for exit. Maximum cooperation is the way to go. Let us embrace team work. **Let the University pass through you not you passing through the University**

Thanks and Best Wishes.
